

# 2015 International Symposium

## Recent Breakthroughs in Omics Research for Food-borne Pathogens

Date: Jun 02, 2015 (Tue)  
Venue : #101, Bldg.203, SNU

### Program

- 13:30-14:00 Registration
- 14:00-14:10 Opening Remark *Dr. Sang-Ho Choi, Seoul Nat'l Univ., Korea*
- 14:10-14:50 A Milk-Oriented Microbiota (MOM) in Nursing Infants: What MOMs can teach us about next generation prebiotics and probiotics  
*Dr. David Mills, Univ. of California, Davis, USA*
- 14:50-15:15 Impacts of toxic compounds in foods on human intestinal microbiota  
*Dr. Bongsoo Kim, Hallym Univ., Korea*
- 15:15-15:35 Coffee Break
- 15:35-16:00 Bioinformatics for Analyzing Microbial Genomes and Metagenomes  
*Dr. Kyung Mo Kim, KRIBB, Korea*
- 16:00-16:40 FIPHA: Fitness pattern based heuristic approach to unravel novel virulence regulators and vaccine targets in zoonotic pathogen *Edwardsiella* bacteria  
*Dr. Qiyao Wang, East China Univ. of Science & Technology, China*
- 16:40-17:00 Closing Remark *Dr. Sang-Ho Choi, Seoul Nat'l Univ., Korea*
