2020 nominations now open

Schmidt Science Fellows are future leaders who are passionate about the potential of interdisciplinary science to accelerate discovery and solve the world's most pressing problems.

Our Fellows are exceptional and ambitious scientists, prepared to take scientific risks to achieve global impact.

We offer:

- A unique one-year interdisciplinary Fellowship program
- A one-year postdoctoral placement in a leading laboratory, anywhere in the world to undertake research at a distinct interdisciplinary pivot from your PhD
- \$100,000 USD personal stipend
- Bespoke academic and professional mentoring with renowned international experts
- A Global Meeting Series in international locations delivering training in:
 - Leadership & management
 - Personal effectiveness
 - Funding & finance
 - Broadening interdisciplinary perspectives
 - Engaging in society
 - Developing communities
- Join a lifelong community of interdisciplinary leaders committed to global impact.

Applications to Schmidt Science Fellows is by nomination from your PhD institution only.
